Mr. Mitchell is truly a business man, who applies business methods to his farming, hence his wonderful success.

Former Representative W. F. Arnold, candidate for the Democratic nomination for Associate Judge of the County Court in the Second District, was in Farmington Monday. Mr. Arnold is well known throughout the county, and especially in the Lead Belt country and the Second judicial district. He is a man of sterling, upright character, of sound and conservative judgment, and would make a most excellent representative of the people's interests on the county bench. The Democrats of the Second district could not do better than nominate and elect him.

Mr. Matkin is a native of St. Francois county and belongs to one of its oldest, best known and most prominent families. He is a successful farmer and a man of good judgment in matters pertaining to the people's interests. As all the candidates for County Judge hail from the Lead Belt or northern part of the county, Mr. Matkin thinks that his end of the county, which has not been represented on the bench for some years, is entitled to consideration and hence his announcement. He is a life-long Democrat and would appreciate the support and votes of all Democrats in the Second district in the primary.

The announcement of Ferd F. Beard of Bismarck as a candidate for the Democratic nomination for County Assessor may be found in The Times this week. Mr. Beard has long been one of our best leading citizens and business men, whose sterling honesty, upright character and general efficiency are well known. Genial and courteous to all his popularity is widespread, and as he lives in one of the strongest Democratic precincts in the county, which seldom presents a candidate, he feels that he ought to receive the favorable recognition of Democrats all over the county. There is no doubt that he would make a strong and popular man on the ticket. He solicits and will greatly appreciate the support and votes of all Democrats at the primary.

C. E. Marshall of Flat River announces himself this week as a candidate for the Democratic nomination for Representative in the next General Assembly. He is a staunch, active and working Democrat, comes of an old Democratic family, and is awake to the general interests and needs of the State. If nominated he would prove himself an active worker for the ticket, and would appreciate the support, and the honor which that support would imply, of the Democratic voters of this county.

Applications for a principal for the Libertyville Consolidated High School will be received until Saturday, June 3, 1916.

MISS NETTIE MCCLINTOCK

Miss Jennetta Ann McClintock was born in Lawrence county, Mo., April 29, 1855, and died at the home of her sister, Mrs. Rebecca Fleming, this city, May 26, 1916, being 61 years and 27 days of age.

Of her immediate family, Miss McClintock is survived by two brothers and four sisters: John S. McClintock of Deadwood, South Dakota, who reached Farmington a few hours before his sister's death; Chas. McClintock, Mrs. Mary Doss and Mrs. Rebecca Fleming of Farmington; Mrs. Nancy Murphy of Poyner, Mo., and Mrs. Susan Burgess of Ste. Genevieve county, together with a number of nephews and nieces and other relatives. One little niece, Laura Leona Horn, Miss McClintock claimed and cared for as her own.

Miss Nettie, as she was familiarly called by a large circle of friends, united with the church in her girlhood and was a devoted Christian all of her life. During the last weeks of her life she was a great sufferer, but she bore her afflictions with true Christian fortitude and no murmur of complaint was heard. Her gratitude for the kindly ministrations of loved ones and the constant care of her physicians knew no bounds. She was always saying, "Everybody is so good to me." When the time came to go, she asked all to meet her in heaven, and so died as she had lived in full assurance of the Christian's hope.

A very large audience attended the funeral services at the Southern Methodist Church last Sunday afternoon, her pastor, Rev. O. H. Duggins, assisted by Rev. J. M. Bailey of the Christian Church officiating. The interment was made at the family burying ground several miles in the country. The goodly number of relatives and friends, who comprised the funeral cortege found, on their arrival at the cemetery, a large crowd already assembled from the surrounding country. Here on the beautiful hill-top, among several generations of kindred, we laid her to rest.

"Life's labor done, as sinks the clay,
Light from its load the spirit flies,
While heaven and earth combine to say,
How blest the righteous when he dies."

A TRIBUTE OF RESPECT

Resolved, That the members of the W. C. T. U. knowing the real worth and many virtues of our deceased member, Miss Nettie McClintock, and recognizing the irreparable loss to our society as well as to her family, we hereby tender our warmest love and deepest sympathy in this great affliction.

Resolved, That in her devotion to the temperance cause, and her modest daily exemplification of every good work, we can pay no better tribute to her memory than to strive to emulate the example of this our friend, for, after all there is nothing comparable in value to human friendship, and as this has risen to the divine heights of love for our dear member, may it bring to the weary, wounded hearts a healing balm from the very trees of paradise.

Resolved, That the secretary is hereby instructed to enter these resolutions on our records as a testimonial of her affiliation with this society, and a copy hereof furnished the family and the local papers.

MRS. M. PIPKIN.

MRS. O. J. MAYBERRY.

MRS. W. T. HAILE.

CARE OF CREAM

During the hot days of spring and summer the farmer who is selling cream to the creamery finds it a problem to keep his cream in the proper condition. However, there are but a few simple rules which should be followed, that would result in better cream. First of all there is cleanliness. Dirt, remember, carries bad flavors. If the barn or its surroundings and cows are dirty it will result in poor milk; poor milk results in poor cream; poor cream results in poor butter.

Immediately after separating, the cream should be cooled down to at least 50 degrees F. Warm cream should never be poured upon cold as the temperature of the lot is raised and bad flavors may result. It is essential that the cream be stirred frequently to insure uniform ripening. If the cream is left undisturbed, the fat rises the same way as it does in milk. As a result the cream is full of curd particles or it becomes "lumpy."

Never put cream in a rusty or battered can and always remember that milk and cream have that property of absorbing bad flavors.—W. B. Combs, Missouri College of Agriculture.
